shaped public
retirement plan
outcomes across the
country over the past
decade. After a brief
introduction, this
analysis begins in
Chapter 2 by
considering how
pension benefit
changes are
reshaping human
capital commitment.
By analyzing both

Administrative and original survey data, this study finds that during times of pension reform and benefit cutback there is an increase of both actual turnover and the intent to leave the organization. The latter is especially true for individuals who do not believe that the pension

changes were fair to all members and those with middle-income household earnings. Chapter 3 investigates how public pension managers adjust equity allocations over time. By applying a life-cycle framework of investing, this study finds that pension

systems with higher ratios of actives to retirees are more likely to invest in riskier equities.

However, after the onset of the market contraction in 2008, the total share of equity investments fell as plans assumed less risky portfolios.

Chapter 4
investigates how

also the case with governors who have greater appointment power, veto power, and party control.

Taken together, the three essays of this dissertation contribute to a better understanding of the effects that the turbulent times surrounding the Great Recession had on

than those offered by the private sector. Yet this book points out that such judgments are often inaccurate, since civil servants hold jobs with few counterparts in private industry, such as firefighters, police, judges, and teachers. Often these are riskier, dirtier, and demand more loyalty

and discretion than would be required of a more mobile labor force in the private sector. The debate challenges traditional ideas about how the public employee labor contract is structured and raises questions about how such employees are attracted to the public sector, retained and
