When heating for the first time after being off, peak usage is 1,500 watts. If the power is kept on, the brewer will keep the internal tank up to temperature using between 200 – 400 watts when heating. While idle and not maintaining heat, the brewer will use the average electricity of a 60 watt light bulb.

Finding the courage to embrace change and take chances is the only way to succeed. Business, culture, and competitive landscapes have fundamentally changed, but basic principles and best practices for succeeding and future-proofing both yourself and your organization haven't. With a mix of compelling stories, research from the social sciences and psychology, and real-world insights, Make Change Work for You shows readers how to reignite their career, rekindle their creativity, and fearlessly innovate their way to success by providing the tools needed to master uncertainty and conquer every challenge they'll face in life or business. Make Change Work for You opens with an overview of the most common factors that lead to self-defeating behaviors, including fear of failure, embarrassment, underperformance, rejection, confrontation, isolation, and change itself. Using a simple four-part model, Steinberg guides readers to understand and better respond to the challenges that change can bring: Focus: Define the problem and come to understand it objectively. Engage: Interact with the

challenge and try a range of solutions. Assess: Review the response(s) generated by your tactics. React: Adjust your strategy accordingly. And, finally, the book shows readers how to develop the vital personal and professional skills required to triumph in the "new normal" by understanding and engaging in the 10 new habits that highly successful people share: 1. Play the Odds 2. Embrace Tomorrow Today 3. Seek Constant Motion 4. Lead, Don't Follow 5. Never Stop Learning 6. Create Competitive Advantage 7. Connect the Dots 8. Pick Your Battles 9. Set and Align Your Priorities 10. Always Create Value

Follow the ultimate coffee geeks on their worldwide hunt for the best beans. Can a cup of coffee reveal the face of God? Can it become the holy grail of modern-day knights errant who brave hardship and peril in a relentless quest for perfection? Can it change the world? These questions are not rhetorical. When highly prized coffee beans sell at auction for \$50, \$100, or \$150 a pound wholesale (and potentially twice that at retail), anything can happen. In *God in a Cup*, journalist and late-blooming adventurer Michael Weissman treks into an exotic and paradoxical realm of specialty coffee where the successful traveler must be part passionate coffee connoisseur, part ambitious entrepreneur, part activist, and part Indiana Jones. Her guides on the journey are the nation's most heralded coffee business hotshots: Counter Culture's Peter Giuliano, Intelligentsia's Geoff Watts, and Stumptown's Duane Sorenson. With their obsessive standards and fiercely competitive baristas, these roasters are creating a new culture of coffee connoisseurship in America—a culture in which \$10 lattes are both a purist's pleasure and a way to improve the lives of third-world farmers. If you love a good cup of coffee—or a great adventure story—you'll love this unprecedented up-close look at the people and passions behind today's best beans. "Weissman illustrates how the origin, flavor compounds and socioeconomic impact of a cup of coffee are relevant now more than ever. . . . Tagging along behind the main characters in today's specialty coffee scene, [she] travels from the exotic to the expected to artfully deconstruct the

connoisseur's cup of coffee." –Publishers Weekly

A history of coffee from the sixth century to Starbucks that's "good to the last sentence" (Las Cruces Sun News). One of Library Journal's "Best Business Books" This updated edition of The Coffee Book is jammed full of facts, figures, cartoons, and commentary covering coffee from its first use in Ethiopia in the sixth century to the rise of Starbucks and the emergence of Fair Trade coffee in the twenty-first. The book explores the process of cultivation, harvesting, and roasting from bean to cup; surveys the social history of café society from the first coffeehouses in Constantinople to beatnik havens in Berkeley and Greenwich Village; and tells the dramatic tale of high-stakes international trade and speculation for a product that can make or break entire national economies. It also examines the industry's major players, revealing the damage that's been done to farmers, laborers, and the environment by mass cultivation—and explores the growing "conscious coffee" market. "Drawing on sources ranging from Molière and beatnik cartoonists to the Food and Agriculture Organization, the authors describe the beverage's long and colorful rise to ubiquity." –The Economist "Most stimulating." –The Baltimore Sun
