It was unknown to Marx himself. Engels came close to coining it, and it was in fact Engels who was chiefly responsible for founding dialectical materialism: the relevant books are his *Anti-Dühring* (published 1877-8), *Dialectics of Nature* (written 1878-82, first published 1927) and *Ludwig Feuerbach and the End of Classical German Philosophy* (published 1886-8).

Abstract. Any periodization of Louis Althusser's work ought to reveal continuous and acute transformations as well as multiple returns to the same determining points.

1 My concern is with Althusser's shifting positions on dialectical thought via Hegel, which forms part of his ongoing engagement with the composition of critique and how it can contribute to radical politics.

As the manuscript fragments of the Dialectics of Nature from the early 1880s document, Engels shifted his attention to and was occupied mainly by the recent innovations in physics until Marx's death in 1883. Having discovered Marx's economic manuscripts, he had to interrupt his natural scientific inquiries once again and devote himself to preparing Marx's writings for publication
