<b>What a Pavlova. I thought there would be more references to cakes and their tastes in the book but was disappointed. This book is mainly about domestic violence and how the victim stays with the offender. This was typical battered wife behaviour except maybe for the one night stands that Kate had.</b>

I somehow expected 'Oh What a Pavlova' to be a kind of upmarket Chick Lit novel and it most certainly isn't! There's so much more to it - trauma, despair, intrigue and mystery. The mystery, for me, was why the heroine didn't take measures to alter her life much earlier (trying not to give spoilers here!) but I do understand that's a very difficult step to take.

What a Pavlova is her debut novel... and her second novel, The Cocktail Bar, will also be published by Crooked Cat Books in early 2018. Tell me about your current book. Several years ago I decided I ’ d like to pen a novel which offered up a very unique perception of domestic violence, with cake, travel, spirituality and the crazy world of publishing as a backdrop.

This is the first scholarly biography of Russian physiologist Ivan Pavlov (1849-1936) in any language. Based upon a wealth of archival material, it weaves his life and science into some 100 years of Russian history and offers a fundamental reinterpretation of his scientific style and his famous research on conditional reflexes.

The essays in this collection range widely not only over Karolina Pavlova's oeuvre but also in their analytical stances. The volume includes close poetic and prosodic analysis, literary history, gender studies, intertextual comparison and biography.

This is the first comprehensive, multidisciplinary, and multilingual bibliography on "Women and Gender in East Central Europe and the Balkans (Vol. 1)" and "The Lands of the Former Soviet Union (Vol. 2)" over the past millennium. The coverage encompasses the relevant territories of the Russian, Hapsburg, and Ottoman empires, Germany and Greece, and the Jewish and Roma diasporas. Topics range from legal status and marital customs to economic participation and gender roles, plus unparalleled documentation of women writers and artists, and autobiographical works of all kinds. The volumes include approximately 30,000 bibliographic entries on works published through the end of 2000, as well as web sites and unpublished dissertations. Many of the individual entries are annotated with brief descriptions of major works and the tables of contents for collections and anthologies. The entries are cross-referenced and each volume includes indexes.

Communism must kill what it cannot control. So for a century, it has killed artists, writers, musicians, and even dancers. It kills them secretly, using bioweapons and poison to escape accountability. Among its victims was Anna Pavlova, history ’ s greatest dancer, who was said to have God-given wings and feet that never touched the ground. But she defied Stalin, and for that she had to die. Her sudden death in Paris in 1931 was a mystery until now. The Dancer and the Devil traces Marxism ’ s century-long fascination with bioweapons, from the Soviets ’ leak of pneumonic plague in 1939 that nearly killed Stalin to leaks of anthrax at Kiev in 1972 and Yekaterinburg in 1979; from the leak of a flu in northeast China in 1977 that killed millions to the catastrophic COVID-19 leak from biolabs in Wuhan, China. Marxism ’ s dark past must not be a parent to the world ’ s dark future. COMMUNIST CHINA PLAYED WITH FIRE AND THE WORLD IS BURNING Nearly ten million people have died so far from the mysterious Covid-19 virus. These dead follow a long line of thousands of other brave souls stretching back nearly a century who also suffered mysterious “ natural ” deaths, including dancers, writers, saints and heroes. These honored dead should not be forgotten by amnesiac government trying to avoid inconvenient truth. The dead and those who remember and loved them deserve answers to two great questions. How? Why? The Dancer and the Devil answers these questions. It tracks a century of Soviet and then Chinese Communist poisons and bioweapons through their development and intentional use on talented artists and heroes like Anna Pavlova, Maxim Gorky, Raoul Wallenberg and Alexis Navalny. It then tracks leaks of bioweapons beginning in Saratov, Russia in 1939 and Soviet Yekaterinburg in 1979 through Chinese leaks concluding in the recent concealed leak of the manufactured bioweapon Covid-19 from the military lab in Wuhan, China. Stalin, Putin, and Xi, perpetrators of these vast crimes against humanity itself, should not be allowed to escape responsibility. This book assembles the facts on these cowardly murderers, calling them to account for their heartless crimes against man concluding in Covid-19.
