Timely, practical, comprehensive manual for financing entrepreneurial ventures, with a strong European perspective.

Little Book of Louis Vuitton is the pocket-sized and fully illustrated story of one of the world's most luxurious fashion houses. Louis Vuitton's monogrammed bags have been seen on the arms of celebrities and royals alike for over 150 years. From the young Louis seeking his fortune in Paris through to two world wars, the Great Depression, the Jazz Age and the Swinging Sixties, there is no era in which this most opulent of brands hasn't thrived. Detailing the global expansion of Louis Vuitton in the 1980s, the creation of the powerful fashion conglomerate LVMH, and the appointment in 1997 of Marc Jacobs, this is the story of a transformation from luggage company to high-fashion label. Louis Vuitton's continued evolution under the creative direction of Nicolas Ghesquière and Virgil Abloh is also depicted through fabulous images and captivating text.

Management models: many students will come across them in their studies, yet it is only when actually working with them that the function and benefit of management models are revealed. 101 Management Models gives a comprehensive overview of traditional models as well as innovations in management models. To allow quick access to the models, several indexes are provided, arranged by objective, discipline and author. All models are discussed in a transparent format: the fundamentals of the management model; its application; the result; the pitfalls. This intuitive and accessible textbook will be useful for all students of management - particularly those coming at the topic from another background such as economics or engineering and is supported by a companion website: <http://www.managementmodels-englishedition.noordhoff.nl/>

The traditional understandings that structure the relationships between public servants and the wider political system are said to have undergone considerable change. But what are these formalized and implicit understandings? What are the key dimensions of such bargains? In what conditions do bargains rise and fall? And has there been a universal and uniform change in these bargains?The Politics of Public Service Bargains develops a distinct perspective to answer these questions. It develops a unique analytical perspective to account for diverse bargains within systems of executive government. Drawing on comparative experiences from different state traditions, this study examines ideas and contemporary developments along three key dimensions of any Public Service Bargain - reward, competency and loyalty and responsibility.The Politics of Public Service Bargains points to diverse and differentiated developments across national systems of executive government and suggests how different 'bargains' are prone to cheating by their constituent parties. This study explores the context in which managerial bargains - widely seen to be at the heart of contemporary administrative reform movements - are likely to catch on and considers how cheating is likely to destabilize such bargains.

Christian Dior: The Illustrated World of a Fashion Master is a stunning illustrated biography of legendary designer Christian Dior from internationally renowned fashion illustrator Megan Hess. Discover the key moments of Dior's fascinating life and iconic items from the fashion world that he created. Dior's love of flowers, creativity, femininity and good-luck charms were woven into everything he designed, and his New Look remains iconic to this day. Elegantly enclosed by a hardback cover and ribbon, Megan's beautiful illustrations follow Dior through three distinct chapters: the highs and lows of his early life, set against a backdrop of bohemian and wartime Paris; the couture house that he built into an empire in just ten years; and the incredible legacy he left behind for one of fashion's most influential brands. Christian Dior is a celebration of a man whose life was as remarkable as the clothes that he created, brought to life on the page by the expert hand of Megan Hess.

Four years ago, the bestselling authors of The Challenger Sale overturned decades of conventional wisdom with a bold new approach to sales. Now their latest research reveals something even more surprising: Being a Challenger seller isn't enough. Your success or failure also depends on who you challenge. Picture your ideal customer: friendly, eager to meet, ready to coach you through the sale and champion your products and services across the organization. It turns out that's the last person you need. Most marketing and sales teams go after low-hanging fruit: buyers who are eager and have clearly articulated needs. That's simply human nature; it's much easier to build a relationship with someone who always makes time for you, engages with your content, and listens attentively. But according to brand-new CEB research-based on data from thousands of B2B marketers, sellers, and buyers around the world—the highest-performing teams focus their time on potential customers who are far more skeptical, far less interested in meeting, and ultimately agnostic as to who wins the deal. How could this be? The authors of The Challenger Customer reveal that high-performing B2B teams grasp something that their average-performing peers don't: Now that big, complex deals increasingly require consensus among a wide range of players across the organization, the limiting factor is rarely the salesperson's inability to get an individual stakeholder to agree to a solution. More often it's that the stakeholders inside the company can't even agree with one another about what the problem is. It turns out only a very specific type of customer stakeholder has the credibility, persuasive skill, and will to effectively challenge his or her colleagues to pursue anything more ambitious than the status quo. These customers get deals to the finish line far more often than friendlier stakeholders who seem so receptive at first. In other words, Challenger sellers do best when they target Challenger customers. The Challenger Customer unveils research-based tools that will help you distinguish the "Talkers" from the "Mobilizers" in any organization. It also provides a blueprint for finding them, engaging them with disruptive insight, and equipping them to effectively challenge their own organization.

Eva, a 1927 novel by Dutch writer Carry van Bruggen, is an experiment in depicting a woman's life from girlhood to marriage, and beyond, to sexual freedom and independence. At the same time, the narrative expresses Eva's dawning sense of self and expanding subjectivity through a stream of consciousness told by a shifting narrator. Burdened all of her life by feelings of shame, at the end of the novel Eva overcomes this legacy of her upbringing and declares that it is 'bodily desire that makes love acceptable'. Carry van Bruggen's rich and varied language conveys Eva's experience of the world. Powerful memories of an orthodox Jewish childhood pervade the novel with its fluid sense of time. As Eva puts it, 'I let these years slip through my fingers like a stream of dry, glinting sand.' Jane Fenoulhet makes this important modernist novel accessible to English readers for the first time. While it can be described as a becoming-woman of both Eva and her creator, so can the translation be seen as the translator's own becoming, as Fenoulhet explains in the accompanying commentary, where she also describes the challenges of translating van Bruggen's dynamic, intense narrative. For Fenoulhet, translation is more a matter of personal engagement with the novel than a matter of word choice and style. In this way, the emotional and intellectual life of the main character is re-enacted through translation.
