A standard model for effective mediation and conflict resolution, now in an updated fourth edition, can be used in diverse environments. Original.

The popular The Mediator's Handbook presents a time-tested, adaptable model for helping people work through conflict. Extensively revised to incorporate recent practice and thinking, the accessible manual format lays out a clear structure for new and occasional mediators while offering a detailed, nuanced resource for professionals. Starting with a new chapter on assessing conflict and bringing people to the table, the first section explains the process step by step, from opening conversations and exploring the situation through the phases of finding resolution—deciding on topics, reviewing options, and testing agreements. The "Toolbox" section details the concepts and skills a mediator needs in order to: Understand the conflict Support the people Facilitate the process Guide decision-making Throughout the book, the emphasis is on what the mediator can do or say now, and on the underlying principles and core methods that can help the mediator make wise choices. Long a popular course textbook for high schools, universities, and training programs, The Mediator's Handbook is also a valued desk reference for professional mediators and a practical guide for managers, organizers, teachers, and anyone working with clients, customers, volunteers, committees, or teams. Jennifer E. Beer, PhD, mediates organizational conflicts, facilitates meetings, and offers related workshops, regularly teaching a negotiation course at Wharton (University of Pennsylvania). Caroline C. Packard, JD led Friends Conflict Resolution Programs for fifteen years and is an organizational conflict response specialist and mediator based in Philadelphia, Pennsylvania. Eileen Stief developed the mediation process presented in the Handbook, training a generation of mediators to work with community, multi-party, and environmental disputes.

Mediation Theory and Practice, Third Edition introduces you to the process of mediation by using practical examples that show you how to better manage conflicts and resolve disputes. Authors Suzanne McCorkle and Melanie J. Reese help you to understand the research and theory that underlie mediation, as well as provide you with the foundational skills a mediator must possess in any context, including issue identification, setting the agenda for negotiation, problem solving, settlement, and closure. New to the Third Edition: Expanded content on the role of evaluative mediation reflects the latest changes to the alternative dispute resolution field, helping you to distinguish between various approaches to mediation. Additional discussions around careers in conflict management familiarize you with employment opportunities for mediators, standards of professional conduct, and professional mediator competencies. New activities and case studies throughout each chapter assist you in developing their mediation competency.

Experienced mediators take you step-by-step through the mediation process, offering strategies to apply in particular contexts and valuable tips to help develop and enhance skills. This highly practical approach reflects in checklists, comments and casenotes throughout including shuttle negotiation and mediation.

The Handbook of Mediation gathers leading experts across fields related to peace, justice, human rights, and conflict resolution to explore ways that mediation can be applied to a range of spectrums, including new age settings, relationships, organizations, institutions, communities, environmental conflicts, and intercultural and international conflicts. The text is informed by cogent theory, state-of-the-art research, and best practices to provide the reader with a well-rounded understanding of mediation practice in contemporary times. Based on four signature themes—contexts; skills and competencies; applications; and recommendations—the handbook provides theoretical, applicable, and practical insight into a variety of key approaches to mediation. Authors consider modern conflict on a local and global scale, emphasizing the importance of identifying effective strategies, foundations, and methods to shape the nature of a mediation mindfully and effectively. With a variety of interdisciplinary perspectives, the text complements the development of the reader's competencies and understanding of mediation in order to contribute to the advancement of the mediation field. With a conversational tone that will welcome readers, this comprehensive book is essential reading for students and professionals wanting to learn a wide range of potential interventions for conflict.

"This second edition of [this title] encompasses stories from around the world. The writers (24 top international mediators) were asked to write about moving, successful, unsuccessful, happy, sad and funny mediations...From these...stories, mediators will learn how to help clients find positive outcomes to conflict resolution."--

What can a mediator do when negotiations stall? How can a mediator help participants reach the finish line? How should a mediator best respond when the parties confess that they are too far apart to settle? Is there anything a mediator can do to help the high-conflict litigant achieve resolution of his emotional case?

A "how-to" book for clinical ethics consultants, palliative care professionals, and bioethics mediators in the most difficult situations in health care. Expanded by two-thirds from the 2004 edition, the new edition features two new role plays, a new chapter on how to write chart notes, and a discussion of new understandings of the role of the clinical ethics consultant.
